Our safety-trained experts \_\_\_\_\_

CSR and certifications \_\_\_\_\_

A large white tanker truck is the central focus, parked on an asphalt surface. The truck has a blue logo on its side, which appears to be a stylized 'B' or 'D' inside a circle. In the background, several other white trucks are parked in a row, and a line of trees is visible under a clear blue sky. The text 'Our DNA' is overlaid in white on the side of the truck.

# Our DNA

# HISTORY

Responsiveness, adaptability and technical expertise are an integral to the DNA of the Brun Group and its subsidiaries.

Our employees undergo regular training and are committed on a daily basis. They contribute to maintaining operational performance while guaranteeing optimum safety.

The Group's added value: technical and environmental expertise aimed at providing support to customers while maintaining driver comfort and safety.

## 2023

His daughters, Marine and Chloé Le Roux, take over the family business.

This 5th generation diversifies the Group's activities while prioritising respect for the environment and reducing its carbon footprint.

## 1954

Daniel Le Roux, Lucien Brun's son-in-law, takes over the company's management and establishes it in Eybens.

At this point in time, the site has around twenty vehicles.

## 1910

Georges Brun, the company's founder, transports general goods from the Romanche Valley to Vizille station using horse-drawn carriages.

## 1971

Jean-Yves Le Roux, the founder's great-grandson, heads the Group which is entirely owned by the family.

Under his leadership and thanks to strong external growth, the Group becomes a renowned player in the transport of dangerous goods and speciality products.

## 1930

Lucien Brun, his son, continues to develop the Group's business with trucks and specialises in hazardous materials.

# KEY FIGURES

188 M

2022 turnover

21 sites

In France and Belgium

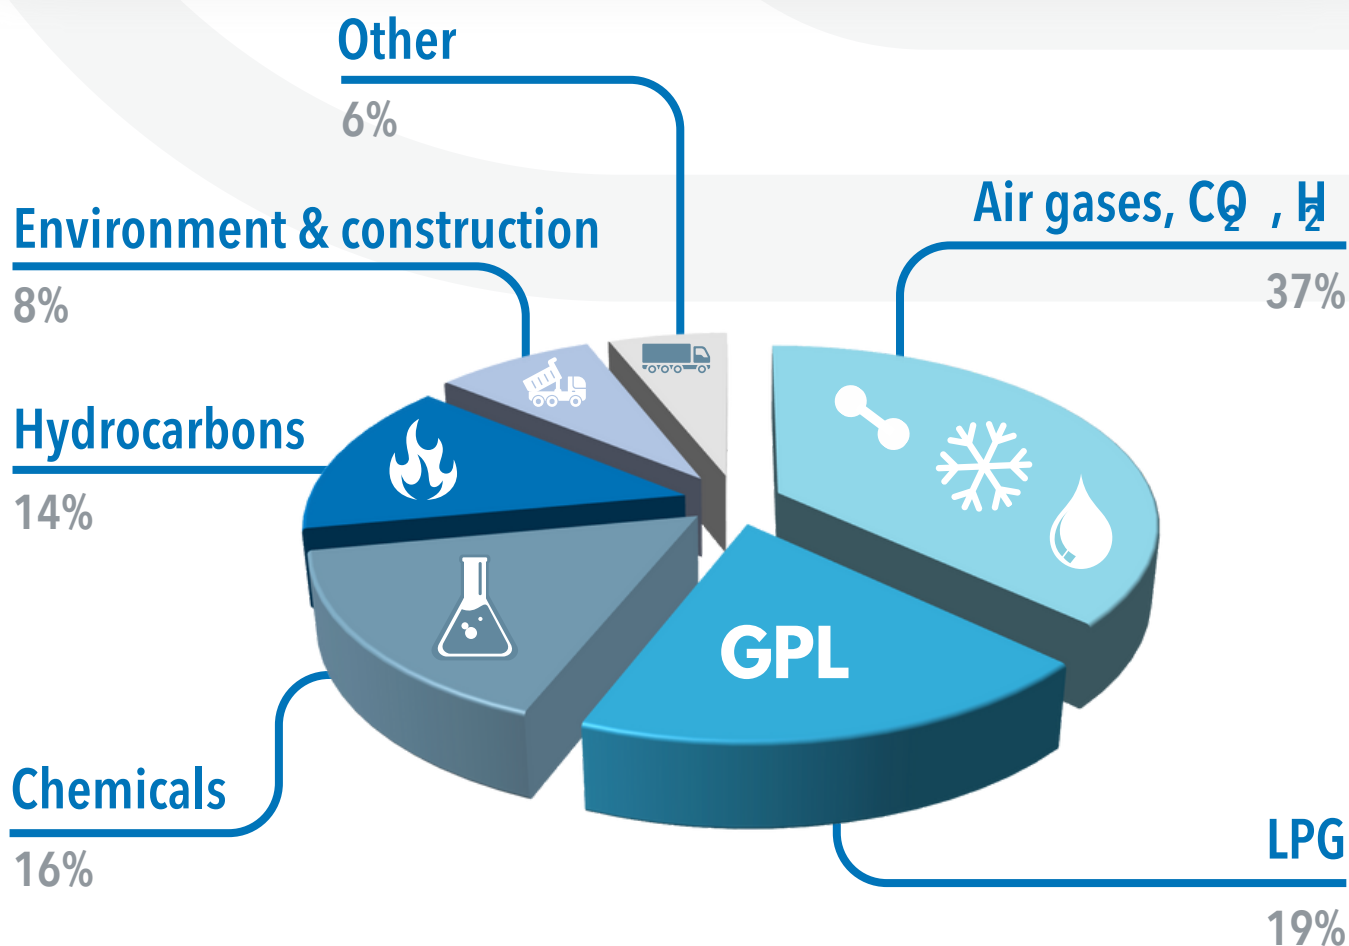

3 000

Vehicles

1400

Employees

# SUBSIDIARIES

All our subsidiaries are autonomous, but closely linked by their values and expertise – they have even retained their original names.

This was a conscious decision following their takeover in order to maintain their local reputation and identity.

## Location

AMATO TRANSPORT AFFRETEMENT - Fos-sur-Mer, 13

AQUITRANS - Saint-Loubès, 33

BECQUET - Saint-Pol-sur-Mer, 59

BLONDEL - Vieux-Thann, 68

BRUN PERGUILHEM OCCITANIE (BPO) -

Villeneuve-Tolosane, 31

BRUN - Eybens, 38

BRUNO - Ozouer-le-Voulgis, 77

BURLOTTO - La-Roquette-sur-Var, 06

CARGO ORGANISATION SERVICES (COS) -

Neuville-Saint-Amand, 02

JUNG - Kilstett, 67

GUY LEFEBVRE - Élincourt-Sainte-Marguerite, 60

LOGISTIQUE ET PRESTATIONS INDUSTRIELLES (LEPI) -

Vieux-Thann, 68

MAZET MERCIER - Limay + Les Sorinières, 78 + 44

NORMANDIE SOLUTIONS SERVICES (NSS) -

Gonfreville-l'Orcher + Rouen, 76

SOCIÉTÉ AIXOISE DE LOCATION ET DE TRANSPORT (SALT) -

Martigues, 13

SERVANIN - Saint-Genis-Laval, 69

SMVI - Vieux-Thann + Saint-Rambert-d'Albon, 68 + 26

SPECILOR - Hauconcourt, 57

LOCATANK - Eybens, 38

TANK SERVICE - Dunkirk + Mulhouse, 59 + 68

VANDERVORST - Machelen, 18 Belgium

# CUSTOMERS

Our long-standing customers play a vital role in Brun Group's success.

We are grateful for the trust they have placed in our services over the years.

These enduring partnerships are a testament to our customers' trust in our transport and logistics services.

Our commitment to the highest standards of safety, reliability and compliance has been the bedrock of these relationships.

# FLEET OF VEHICLES

## ENGINE FLEET

---

- EURO 6 tractors
- LNG tractors
- EURO 6, LNG and CNG rigids trucks

## SEMI-TRAILER FLEET

---

### Our tanks

- CO<sub>2</sub>
- LNG
- Fuel
- Bitumen
- Chemicals (stainless steel and coated)
- LPG

### Other

- Containers
- Container carriers
- Skips
- Ampliroll
- Concrete mixers
- Flatbed trucks
- Flatbed trucks with crane
- Oversize load flatbed trucks

## SPECIFIC EQUIPMENT

---

- Metered distribution
- Pump, compressor
- Generator
- Truck-mounted forklifts
- Electric pallet truck

**Our tanks and containers can be handled from the ground**

# TRADES

**ROAD TRANSPORT**

**INTERNATIONAL TRANSPORT**

**INTERMODAL TRANSPORT**

**CONTAINER HIRE**

**HIRE OF VEHICLES WITH DRIVER**

**LOGISTICS SERVICES - STORAGE**

**CHEMICAL AND GAS TANK MAINTENANCE**

**TANK WASHING**

**HEATING STATIONS**

**DESIGN OFFICE - DESIGN OF SPECIFIC EQUIPMENT**

# Our activities

# Road transport

# CRYOGENICS

Acceptance and hauling of customer equipment

24/7 service

Owned  
cryogenic  
packaging

Bulk and  
packaged

Argon, Nitrogen,  
CO<sub>2</sub>, Helium,  
Hydrogen,  
Oxygen

Industrial sites, sensitive sites and health establishments

# LNG

Measured distribution at service stations and industrial sites

Bunkering  
of ships

Owned  
tanks

Hauling

# HYDROGEN

Expertise and implementation of optimised logistics schemes

Connection and unloading  
on site

Mobility, energy  
transition, industry

Hauling

# LPG

With mass measurement system and ATEX radio remote control

Bulk and packaged

By tank semi-trailer  
and rigid truck

# CHEMICALS

Single and multi-compartment, container ship

Inorganic chemicals  
and solvents

Storage  
tank hire

Bulk liquids  
and powders,  
packaged

Metered  
distribution in  
IBCs and tanks

# HYDROCARBONS

Distribution of fuel and fuel oil at service stations on industrial sites and to private customers

Bunkering of ships

Special fuels

Tank semi-trailer and rigid truck

# BITUMEN

Sea freight exports

Heat-insulated tank

Construction sites  
and/or bitumen plants

Release into the atmosphere from the ground, thereby preventing both the risk of  
splashing when the tank dome is opened and falls due to working at height

# ENVIRONMENT AND CONSTRUCTION

Building rubble skip,  
Ampliroll, concrete mixer

Multiloader trailer with or  
without grapple + skip  
loader truck

Transport of construction  
products and waste in  
tippers and flatbeds

Evacuation and transport  
of ship sludge and slop  
by tanker

Flatbed truck with crane

# PACKAGED GOODS

FIBC : asbestos, explosives and other products

Hazardous and non-hazardous waste  
(trackdéchets tool)

General cargo and long goods, palletised or not

Tarpaulin-covered transport (rigid truck or semi-trailer, standard, tailboard, truck-mounted forklifts), standard flatbed

# OVERSIZE LOADS

1st, 2nd and 3rd category transport

Transport of site equipment, bungalows, crane arms, petroleum product tanks, etc.

Standard flatbeds, extendable flatbeds, extendable lowbed trailers, heavy machinery transport trucks

# Logistics solutions and intermodal transport

# EQUIPMENT HIRE

Specific designs: steel or stainless steel tanks, customised coatings at the customer's request compatible with transported products

Adapted intermodal chassis with ergonomic access

Tank containers (gas)  
from 27.5 bar to 140 bar

Tank containers : stainless steel and special steels, low and high pressure from 4 bar to 140 bar

Semi-trailer  
hire

Mobile tank

# INTERMODAL TRANSPORT

Environmentally-friendly logistics solutions

Solutions adapted  
to customer needs

200 ITUs and 140 chassis

Door-to-door services with  
no transloading

Operation of a  
multimodal terminal

# STORAGE AND WAREHOUSING

Storage services : ADR and non-ADR products

On-site industrial services

Supply  
of teams

Cracking station

Hydrocarbon  
depot

Loading of powdered products using a Dino with integrated dust collector and high-capacity hopper

# | Other services

# HEATING STATION

Electric heating station

Steam heating station

Hot water  
heating station

2 computer-controlled and regulated heating stations : Dunkirk and Fos-sur-Mer

# WASHING

External washing of units with rollers

Internal washing of  
chemical and food tanks

Reheating and regulatory  
testing

Washing and storage  
of IBCs

Cleaning of  
industrial sites

2 stations : Dunkirk and Mulhouse

# MAINTENANCE

ADR inspection, periodic tank testing centre

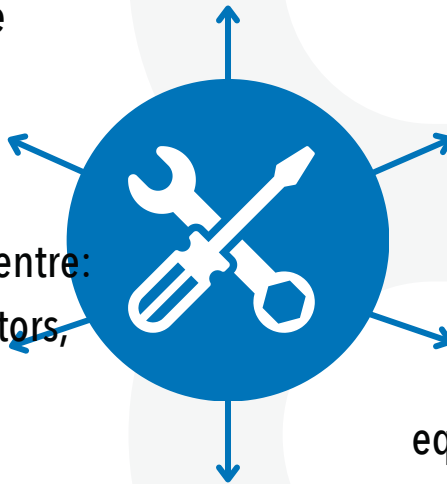

Preparation and performance  
of roadworthiness tests

Vehicle accessory assembly centre:  
pumps, compressors, generators,  
customer OBCs, etc.

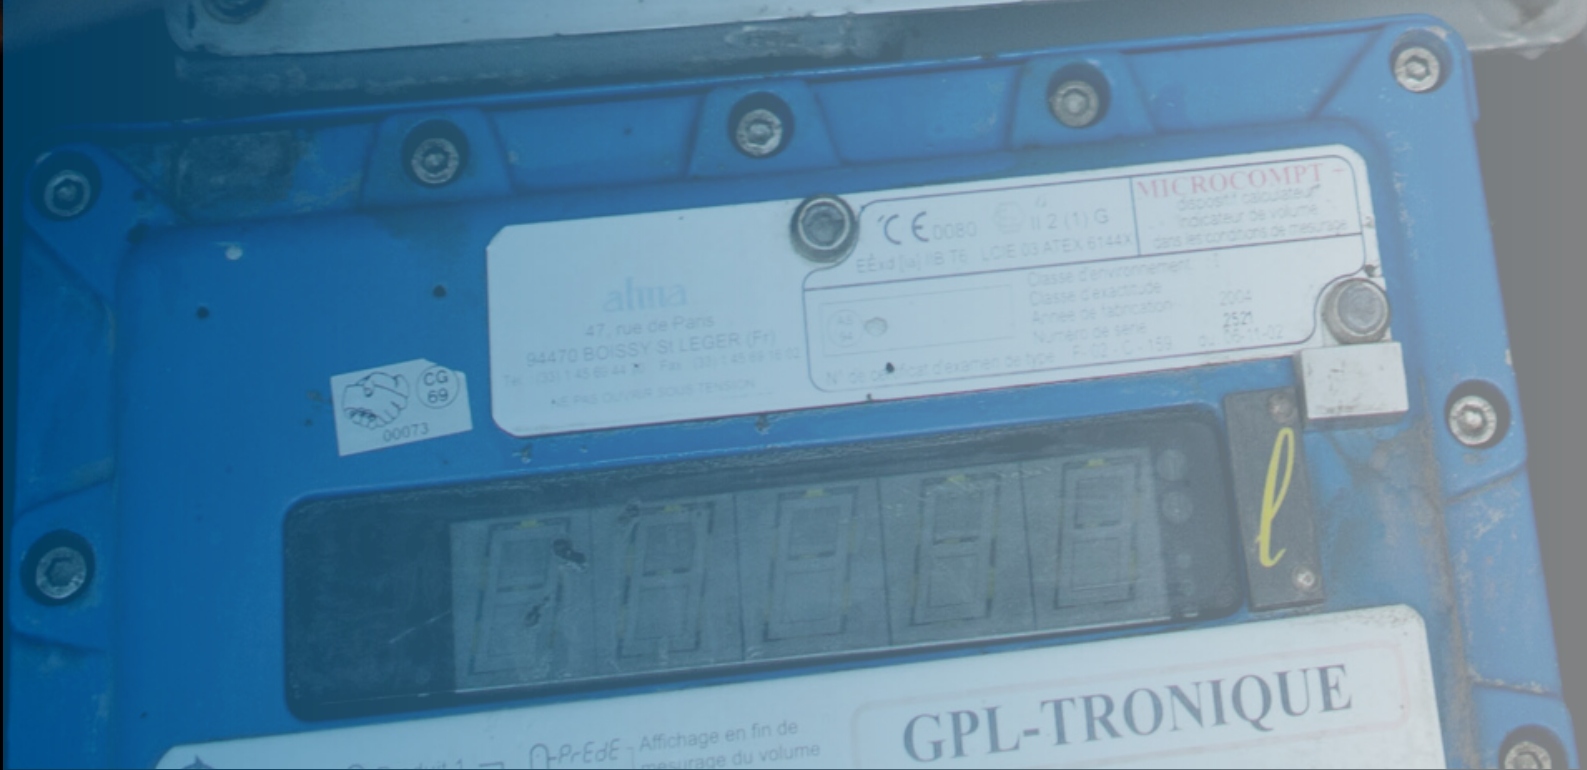

Routine maintenance  
or specific interventions  
by specialist  
technicians

Metrology : inspection  
and repair of measuring  
equipment for liquids other  
than water

Maintenance of running gear and distribution unit for customer cryogenic tanks

# Safety and environment

# VEHICLE MAINTENANCE

Preparation and performance of  
roadworthiness tests

ADR inspection, periodic tank  
testing centre

Maintenance of running gear and  
distribution unit for our tanks

Metrology : inspection and  
repair of measuring  
equipment for liquids other  
than water

# OUR SAFETY-TRAINED EXPERTS

- | A team of tutors for each business line
- | Delegated training instructors
- | A group QHSE manager
- | Subsidiary QHSE managers
- | 12 safety advisers

- | ADR-trained drivers with specialised training depending on the material transported

- | Regular safety audits for our drivers

# CSR AND CERTIFICATIONS

ISO 9001 : 2015 group certification for all transport subsidiaries

10 SQAS-assessed subsidiaries

Recycling and limiting waste

Employee participation through monthly consumption monitoring

Investment in an engine fleet using alternative energy sources to diesel

Selection of suppliers demonstrating environmentally-friendly practices in their supply of goods and services

Reduction of carbon and fine particle emissions: investment in the most technologically advanced equipment and drivers trained in energy-efficient driving

Raising awareness of good environmental practices among our permanent and workshop staff

**Boasting more than a century of experience, the Brun Group specialises in the transport of dangerous goods and logistics solutions for speciality products.**

**Over the years, the Group has successfully adapted to market changes while preserving the family values that underpin its strength.**

**Composed of a team of experts, our design office allows us to create innovative and custom solutions to meet our customer's needs while ensuring maximum safety and high-quality service.**

**We are aware of the complexity of the sector and the ecological issues involved. As such, we are reducing our environmental impact by using more responsible fuels and adopting cutting-edge technologies to improve our energy efficiency.**

**Our teams are trained on a daily basis to uphold the highest standards of quality and safety.**

**Thanks to our unwavering commitment and loyalty to our customers, we have earned a leading position in the industry.**

**Lionel Radenne,  
Managing Director**
